## **Cooke City, natural avalanche activity**

Date

Wed, 03/06/2024 - 15:55

From email: "Natural avalanches observed near Cooke City today. At least 3 big PWL/ deep  $\underline{slab}$  avalanches. All northerly aspects, mid elevations.

Also, observed one upper elevation north facing slide that looked more like a storm slab."

Region Cooke City Location (from list) Republic Mountain Observer Name Beau Fredlund
