

Poor test scores up Goose Creek

Date

Sun, 01/05/2025 - 14:30

Activity

Skiing

Big whumph as we stepped up onto the lower meadow to dig a practice pit. Pit was about 75cm deep, NE aspect, looking toward Trail Creek Road. CT12, 3cm from the ground, ECTP 16 on that same weak layer of facets just above the ground.

Region

Northern Gallatin

Location (from list)

Goose Creek

Observer Name

Tom Kochevar
